Notice of Possible Additional Charges

Under certain circumstances, there may be additional services offered and charges billed at the time of a routine well-child appointment. The following are the most common situations during which these extra charges may be incurred.

1. Based on your healthcare provider's assessment, additional testing, screening, counseling or procedures may be requested or deemed necessary but are not typically part of a preventative well visit.
2. Your child is scheduled for a well visit PLUS follow-up for a chronic issue (such as asthma, ADHD, mood disorder, behavior concerns) that would ordinarily be addressed in a separate visit. Addressing chronic issues at the time of a well visit is offered in an attempt to save you an additional office visit.

Whether the additional charges or co-pays are covered is determined by your insurance policy, not our practice or your provider. Depending on your policy, you may be responsible for part or all of the charges.

Please review your insurance policy to be aware of your individual payment responsibilities.
